

Flocky the Noisy Duck (Travels with Lola Childrens Books Book 1)

Lola and her mum are on a camping holiday in France when a very loud quack disturbs an afternoon nap. Together they investigate the noise and Lola spends the afternoon learning about ducks. This book is part of the Travels with Lola series. The books are based on true stories and written and illustrated with Lolas help. Flocky the Noisy Duck was written when Lola was six and is a child's take on a chapter of Clancy Goes to France - the memoir written by Emma about a 3,000 mile road trip around France with Lola. These books include fun, short stories for children as well as activities to do at the end. The aim is to inspire imagination and play through literature and whilst this story is fiction, it is based on their own experience. Being able to explore the world around us while giving our children the gift of learning at the same time, is a wonderful way of enhancing family time in such a busy world. Emma and Lola aim to lead by example, taking us on their adventures both in the UK and Europe. This book is suitable for early readers and can also be enjoyed by younger children when being read to by their parents.
