

Childrens Book: The Tale of East - A Little Elephant with a Very Long Trunk (Ages 4-8)

East is a young elephant with a very long trunk who wants to be like the other elephant kids. He cannot understand why he is the one who has to be different from everyone else. But one day something strange happens. Unforeseen circumstances takes him on an adventure that makes him understand something very important about life... and himself. People are saying; My kids and I loved this book about East and his very long trunk. It has adorable illustrations and a great message about the value of being different and using your unique gifts. It reminded me of classic childrens books and fables. Highly recommended! The author has told a lovely story for young children, and shares her love of beautiful elephants. This cute tale will show your children that there is a reason why youre made differently, and there is always a blessing to be found. The Tale of East reminded of my days as a youth feeling awkward for being taller than the rest of my family! A universal story for all ages, sizes, and colors! I cant wait to read about East's next adventure! One day I will read it to children! Amazing illustrations and a very touching story. It is a great book for children and will make them realize its ok to be different, everyone is different. East is an fantastic character. I hope there are more books for my niece to enjoy.
