

describe Morgans spiritual poetry. Also lyrical and personal, in the style of Hafiz and Rumi. Highly recommended.

- Amiculus, Amazon Review - 5 stars

---

A beautiful voice laced with power and rhyme, MacLean explores and touches the depths of the mystical union with the Divine. I was glad to go along, and discovered some real meditative gems in this book... - Joseph Miller, Amazon Review - 4 stars

---

Having been favorably compared with others in the spiritual genre, MacLean addresses the poetic themes found in mystical Divinity, often intertwined with humor and a strong command of alliteration and meter. While staying close to some traditional symbolism and achieving the quiet finish often found in mystical verse, the collection also surfaces some intriguing ideas about the purpose of humanity here on earth. \* \* \* \* \*

\* about the author: Morgan Kalani MacLean is the pen name of a Protestant-born American seeker of God who uses a pseudonym due to other responsibilities held in the world.

Influenced by the great ideas of the East, including those of Inayat Khan, the Buddha, Sri Aurobindo, and Paramahansa Yogananda, the author has also found resonance and clarity in the example provided by St. Francis of Assisi and in the spiritual cosmology of Meher Baba. Though the author has been published internationally on other topics, this is the first collection of verse shared with the public.
