

Crazy Days of 5th Grade

When Iggy's new teacher continues to eat his homework, he realizes his old ways of studying are over. It will take the mind of a creative genius to fix Iggy's problems in class. What started off as a lonely, boring school year missing his best friend, Snap Shell, turns into a suspenseful ride that includes a strange encounter with a crab and an unexpected trip to the hospital. With the help of his friends and his little sisters stuffed animals, Iggy discovers a hidden talent that proves he never had a problem after all.
