

Aerospace Engineer Aprille Ericsson (STEM Trailblazer Bios)

Have you ever built a cool science project? In middle school, Aprille Ericsson won second place in a science fair. She knew she wanted to keep creating amazing science projects. As an adult, she became an engineer and works at NASA building spacecraft. Ericsson was one of the few girls in her middle school who loved math and science. Years later, she became the first woman to receive a PhD in mechanical engineering from Howard University. At NASA, she helped build spacecraft that can map the moon, monitor climate change, or even bring soil and rocks back from Mars. Learn how Ericsson's passion for science has helped her pave the way for future engineers.

9781467757935: Aerospace Engineer Aprille Ericsson (STEM Trailblazer Bios) The Paperback of the Aerospace Engineer Aprille Ericsson by Laura Hamilton Waxman. This book is part of the STEM Trailblazer Bios series that includes **Aerospace Engineer Aprille Ericsson by Laura Hamilton Waxman - Barnes & Noble**. Meet fascinating people who excel in STEM careers. See what drew them to their specialty and learn about their accomplishments in fields such as robotics, **Images for Aerospace Engineer Aprille Ericsson (STEM Trailblazer Bios)**. Meet fascinating people who excel in STEM careers.
