A humoristic practical approach to understanding why decisions are so difficult and what can be done about it. We think that we fail in decisions because of our own faults. In Business Decisions: D - Side Practical Decision Making Business Guide, we see this is not the case. Many recent popular science books have gleefully shown how irrational we are in making decisions. However, that is not the main reason why we fail in our decisions. The real challenge is our failure to grasp the complexity in most everyday life problems. In Business Decisions: D - Side Practical Decision Making Business Guide, we discover what happens when: An airline pilot has food poisoning from Sushi in Bangkok Why flying is such a hassle Will we get kidnapped by the NSA? Overview of Business Decisions: D - Side Practical Decision Making Business Guide: Business decisions: Complexity is underrated Business decisions: The sushi was poisoned Business decisions: Building pyramids Business decisions: Fusion, packing nothing to Moscow Business decisions: D siding, the road not taken Your satisfaction is 100 percent guaranteed if you purchase Business Decisions: D - Side Practical Decision Making Business Guide.
