

Home Based Business Technology Toolkit: Book 1 in the Unleash your Potential Series. Confused about the right technology to use to run your business from home? This book provides all the answers.

Home Based Business Technology Toolkit: Book 1 in the Unleash your Potential Series. Confused about the right technology to use to run your business from home? This book provides all the answers.

Confused about what technology to use in your home-based business? Need to deliver services over the internet but there is just too much choice? When you do choose you end up paying for more than you need! In this first book in the series Unleash your Potential home-based business toolkits we provide you with a complete list of the tools we have tried and tested so that you dont need to waste time trying every service available to you. The internet is a wonderful place but when it comes to choosing what is right for you, it can become a huge time-waster and costly. Our community members came to us and said We just dont know what to pick. We have wasted so much time trialing one tool after another and end up picking the last one because we just get confused. They also thought that they were paying too much for services that offered more than they needed. After that we went to work. We questioned hundreds of community members who are all home-based business owners (we have +2500 members), my team tried all the options and added a few of their own favorites and after months of time and investing over \$15,000 of our own money, we developed this easy to understand toolkit that has been tailored to the needs of all home-based business owners. Our community loves what we have done, and you will too. Included in this toolkit: Keeping track of everything Sharing files Accessing emails, telephone, chat Billing and payments Website Social Media Management Time Management Backups Anti-virus Securing your identity So you can either have one of those fancy coffees at your favorite coffee shop, or you can: Avoid embarrassing mistakes with your clients Save time (and money) Be confident that you have chosen the right option for you **BONUS:** Technology changes all the time and with the release of this book we have created a special facebook group so that you can share your
