

## Experiments upon magnesia alba, quick-lime, and other alkaline substances. (1766-1797.)

This is an OCR edition without illustrations or index. It may have numerous typos or missing text. However, purchasers can download a free scanned copy of the original rare book from the publishers website (GeneralBooksClub.com). You can also preview excerpts of the book there. Purchasers are also entitled to a free trial membership in the General Books Club where they can select from more than a million books without charge. Original Published by: W. F. Clay in 1893 in 47 pages; Subjects: Science / Chemistry / General; Science / Chemistry / Analytic; Science / Chemistry / Organic; Science / Environmental Science;
