

Spinosaurus: The Thorn Lizard (Graphic Dinosaurs)

Spinosaurus, or the thorn lizard, lived almost 100 million years ago. Using its crocodile like teeth and sharp claws, the Spinosaurus stalked the prehistoric jungles and oceans in search of prey. This frightening reptile may have been the largest carnivorous dinosaur, even larger than the fearsome T-rex! Stunning graphics take the reader through a day in the life of the Spinosaurus, from breakfast to dinner. This fascinating volume also includes fossil facts and information about the period in which the Spinosaurus lived and the other dinosaurs of that time period.
