

## Cocoa and Chocolate, Their History from Plantation to Consumer (Classic Reprint)

Until that appears, I offer this little book, which attempts to cover lightly but accurately the whole ground, including the history of cacao, its cultivation and manufacture. This is a small book in which to treat of so large a subject, and to avoid prolixity I have had to generalise. This is a dangerous practice, for what is gained in brevity is too often lost in accuracy :brevity may be always the soul of wit, it is rarely the body of truth. The expert will find that I have considered him in that I have given attention to recent developments, and if I have talked of the methods peculiar to one place as though they applied to the whole world, I ask him to consider me by supplying the inevitable variations and exceptions himself. The book, though short, has taken me a long time to write, having been written in the brief breathing spaces of a busy life, and it would never have been completed but for the encouragement I received from Messrs. Cadbury Bros., Ltd., who aided me in every possible way. I am particularly indebted to the present Lord Mayor of Birmingham, Mr. W. A. Cadbury, for advice and criticism, and to Mr. Walter Barrow for reading the proofs. The members of the staff to whom I am indebted are Mr. W. Pickard, Mr. E. J. Organ, Mr. T. B. Rogers ;also Mr. A. Hackett, for whom the diagrams in the manufacturing section were originally made by Mr. J. W. Richards.
