

Comprehensive Revision Of Special Theory Of Relativity.

The book is the result of my research work of nearly three decades of youthful life. Albert Einstein's special theory of relativity has lost much of its significance. I am not an antirelativist, as many of the scientists who oppose Einstein's views are dubbed, as a consequence of, science, transformed in the modern times to something, hardcore like religion. Hence, science can't be opposed. True religion, like true science allows Trust, but verify principle. No theory is sacrosanct, but is subject to modifications, that is the essence of science. But unfortunately, theories like relativity have become mystified to hitherto, unknown possibilities, like time travel. Time travel implies aliens could have contacted us, even if the opposite hasn't happened, so that in a Universe of trillions of stars and planets, but is severely contradicted by the question

Where are the timetravellers from the future? Facebook Inc. checked its accounts sometime back to check whether the same futurist has opened any account, with negative result. In Economics, the fundamental theories of Keynes, have gone drastic revisions by modern economists, contradicted by economic theories of Milton Friedman and Friedrich Hayek, in the light of World Economic crisis, 2008 and the net result is we accept on an amended Keynesian Theory, in a century. In an analogous manner, the special theory of relativity, albeit, antirelativists have voiced tremendous opposition on its widespread acceptance, since there is no comprehensive verification, I have succeeded in developing an amended theory of special relativity, entirely

accepting , the underpinnings of a twelfth grade student, comprehensible theory . The author is an Independent Researcher and presently working as a faculty in physics/mathematics in prestigious institutes in Kochi , India. The book is presented as an international edition keeping in mind , Special Theory of Relativity is not taught in Secondary schools in India, unlike in USA and only in NIT and IIT syllabi , as far as technological education is concerned
