

## Cybersex: A Nightmare of the 21st Century-The Rebirth of Armageddon

Cybersex: A Nightmare of the 21st Century - The Rebirth of Armageddon seek to address the physical, mental, psychological challenges and social dynamics that teenagers, parents and the society at large are faced with every day, resulting from their daily encounter with the internet and overindulgence in the world of cybersex. The cybersex phenomenon avails ample opportunity for young people to navigate their way through various viral sites, social networking sites, and chat rooms without their parents consent. These superficially expose them to numerous perils in our society, leaving them vulnerable, as well as providing a great hiding place for pedophiles and psychopathic sexual predators. These felons perpetuate their horrendous crimes of child abuse, molestation, and child trafficking activities on innocent, vulnerable children which thus, sends shockwaves throughout the world leaving millions of people in a constant state of disarray. The challenges are enormous, and the pain that comes with it is excruciating. It is taking place right before our very own eyes, and its toll on our society has assumed a more worrying magnitude pushing our society to a fever pitch. The book is very educational and touches all spectrum of life. It provides strategic guidelines drawn from real-life scenarios using the United States as a cliff-hanger. It will also provide tips and red-flags to protect young people from the sinister plot of unknown sexual predators pervading the internet. The time is now to take the bull by the horns and curb this menace that is jeopardizing the future of our children and the well-being of our society, and make the world a much better place. Born in Nigeria, Abdulazeez Henry Musa is presently a business consultant in Amsterdam. He has been very active in addressing societal issues like child abuse and molestation, stress management, marriage and divorce, and

other social ills that are impacting negatively on the social well-being and safety walls of our society. Publishers website:
