

Dog On A Surfboard

RIDING THE TSUNAMI MAKES THE IRISH TERRIER A LEGEND IN HIS OWN TIME. But there's a price to pay: separation from his companion, injury, conspiracies to keep him from his beloved oceans and their waves. Kamehameha wants what once was. But a menagerie of humans and animals force him to make adventurous detours in plane cargo bays at twenty-thousand feet through the jungles of Central America on a raft down a perilous river over shark-infested waters to a speck of land mid-Pacific. Providing the surfer dog with even more celebrity.
