

Door to Door: The Magnificent, Maddening, Mysterious World of Transportation

Using interviews, data, and deep exploration of the hidden world of ports, traffic control centers, and the research labs defining our transportation future, acclaimed journalist Edward Humes breaks down the complex movements of humans, goods, and machines as never before, from increasingly car-less citizens to the distance UPS goes to deliver a leopard-printed phone case. Tracking one day in the life of his family in Southern California, Humes uses their commutes, traffic jams, grocery stops, and online shopping excursions as a springboard to explore the paradoxes and challenges inherent in our transportation system.
