

Scientific Explanation and Methodology of Science : Selected Papers from the International Conference on SEMS 2012

This volume contains the contributed papers of invitees to SEMS 2012 who have also given talks at the conference. The invitees are experts in philosophy of science and technology from Asia (besides China), Australia, Europe, Latin America, North America, as well as from within China. The papers in this volume represent the latest work of each researcher in his or her expertise; and as a result, they give a good representation of the cutting-edge researches in diverse areas in different parts of the world. Readership: Graduate science students, professional scientists, and researchers.
