

# Everything Parents Should Know About Drugs (Overcoming common problems)

No parent can feel confident that their child won't come into contact with drugs. This essential manual equips you to help your child. It gives you the information you need to talk to your child, and explains the warning signs that a child is using drugs. It suggests action strategies if your fears are confirmed, including advice about involving the police. It also deals with encouraging your children to talk to you, helping them appreciate the dangers of drugs for themselves and develop their own defences against peer pressure.
