

## Exploring the Cosmic Frontier: Astrophysical Instruments for the 21st Century (ESO Astrophysics Symposia)

On May 18-21, 2004, the Max-Planck-Societys Harnack-Haus in Dahlem, Berlin hosted the international symposium Exploring the Cosmic Frontier: Astrophysical Instruments for the 21st Century. The symposium was dedicated to exploring the complementarity and synergies between different branches of astrophysical research, by presenting and discussing the fundamental scientific problems that will be addressed in the next few decades.
