

Columbus As Seen Through The Eyes of Its Children

This book is the result of many months of research and field trips by the classes of Midland Academy. Each class from pre-kindergarten through fifth grade chose something about our city of Columbus that they wanted to investigate. Many visitors came to our school and spoke to classes and in turn most classes took field trips to visit the community organization they were researching. The results of their efforts are the wonderful chapters in this book. We proudly present Columbus As Seen Through The Eyes of Its Children.
