

Forces and Motion (Science Files)

Did you know: you can jump six times higher on the Moon than on the Earth? At 10,000 metres down in the ocean, the pressure on an object is the same as an elephant standing on a postage stamp? Skydivers can reach a steady speed of about 200 kilometres per hour? Find out more amazing facts and mind-bending information in this dynamic and fascinating book on forces and motion. It is perfect for topic-based projects and for Science at Key Stage 2 and 3 (7-14 years).
