

In the Mood Again: Use the Power of Healthy Hormones to Reboot Your Sex Life - at Any Age

Is a lower libido inevitable with age? Not necessarily, contend hormone experts Genie James and Dr. C.W. Randolph. The real sex-life saboteur is hormone imbalance, which is compounded by stress, lack of sleep, wrong food choices, and a sedentary lifestyle. In the Mood Again offers a medically proven solution to safely and naturally restore optimum hormone balance and turn back your sexual clock, no matter what your age. Even better, most people will find the cure in their grocery store, not a doctor's office. Readers will learn how to combine over-the-counter natural (or bio-identical) hormones, specific foods, nutritional supplements, and easy lifestyle choices to restore your sizzle between the sheets. The side effects of this natural sexual enhancement plan: a trimmer body, more positive moods, improved self-esteem, better health, and closer relationships.
