

Leading from the Front: The Best Place for an Effective CEO

The most successful leaders have achieved their goals by leading through example. As CEO, this means you have the opportunity, or rather, the responsibility...to emulate their example by standing shoulder-to-shoulder with your front line employees on the field and being visible throughout your industry. Doing this enables you to successfully exemplify the heart and soul of the company and demonstrate what it takes to be a member of the organization. It also demonstrates to your clients, employees and prospective customers that you lead a vital organization; one that actively engages from the top down, and is not content to sit back and let things happen. Leading from the front means making first-hand observations instead of merely reading reports, asking yourself, What is happening and why? With that insight, you're capable of making needed change confidently and swiftly.
