

Lesbian Sex Secrets for Men, Revised and Expanded

For men, the intimate workings of the female body have long remained one of the great mysteries of the universe. What gives her the most pleasure? Where should you be touching her - and how? Fortunately, there are some people who can offer men the empirical knowledge gained from a lifetime of pleasing women - and getting pleased by them. This frank, frolicsome, and wonderfully illuminating book draws on the sexual advice and sex secrets of lesbians to help men become better lovers. A groundbreaking dialogue between straight men and gay women, and an erotic look inside the often hidden world of lesbian sex, *Lesbian Sex Secrets for Men* reveals a whole new approach to pleasure for men and the women they love. At the same time, this book proves that while sex is something we all do naturally, a little focused effort - and a few simple lessons - can open up a whole new world of enjoyment.
