

# Magical Healing: A Health Survival Guide for Magicians and Healers

Magical Healing is a health survival handbook for magicians, occultists, Pagan priests and priestesses, and energetic healers: the burdens and strains of teaching, healing, exorcism, clearings, leading groups and regular magical work can eventually impact the health of both body and spirit. Magical Healing explores esoteric dynamics of health, plus various healing modalities and magical self maintenance, including magical visionary healing, energy dynamics, use of tarot as a healing aid, working magically with herbs and homeopathy, ritual cleansings and good old magical common sense.
