

## On the Recent Advances of the Ultrasonic Evaluation and Composite Material Characterization: Presented at the 1999 Asme International Mechanical ... 14-19, 1999, Nashville, Tennessee (Amd)

Presentations from the 1999 meeting include discussions of such topics as elastodynamic response of a chain of particles, guided waves in thin-walled structural membranes, lamb wave inspection of concrete beams, and effective yielding characterization of ductile matrix composites containing aligned
