

Online Investing on the Australian Sharemarket

How to trade and invest online, from bestselling investing author Roger Kinsky. With the wide availability of market data and the low cost of online trading, millions of people are taking control of their own future and investing their savings online. The Internet allows small investors to manage their portfolios, set up their own superannuation funds, and research and trade shares all from the comfort of a home office. But there are always risks to investing and without the knowledge of a traditional stockbroker or investment manager to help them steer clear of bad deals, investors need guidance to successfully navigate the abundance of information available to them. This new Fourth Edition of *Online Investing on the Australian Sharemarket* is a complete and comprehensive guide to researching stocks and trading shares, demystifying the complexities and explaining confusing investment jargon along the way. You'll discover how to find the best online broker, setup your account, place orders, analyse the market, and monitor and improve your portfolios performance. The ideal guide for beginner and intermediate level investors who want to learn to invest wisely and profitably. Written by an active trader and bestselling author of *Teach Yourself About Shares*, *Shares Made Simple*, and *Charting Made Simple*. Covers all the basics of online investing, including how to set up an account, research shares, and make profitable trades. Updated to include all the latest information setting up a self-managed superannuation fund, forex trading, and mobile technologies. For Australians who want to take control of their investment portfolios, *Online Investing on the Australian Sharemarket* is the perfect beginners guide.
