

Quantum Mechanics and Experience

Fine Book in a very Near Fine jackets. See scans and description. Cambridge, MA: Harvard University Press, 1993. Second printing of the 1992 first edition. David Z. Albert very engaging Quantum Mechanics and Experience. Octavo, illustrated jacket with Joan Miro painting, gray cloth boards with red spine imprinting, x + 1 + 206 pp. Fine, flawless book in a very nearly fine jacket, which shows just two short closed nicks. See if you can find those in the scans. An absorbing exposition of trenchant but completely understandable quantum philosophy which is as seminal even now as it was in 1993 in many ways, and which, imho, ranks with such titles as The Dancing Wu Li Masters and Whos Afraid of Schrodingers Cat? - as well as a buncha others - as required reading for interested outsiders who have the hearts of physicists, cosmologists, and philosophers of science. Ships in a new, sturdy, protective box - not a bag. L9n
