

## Shackles From the Deep: Tracing the Path of a Sunken Slave Ship, a Bitter Past, and a Rich Legacy

A pile of lime-encrusted shackles discovered on the seafloor in the remains of a ship called the Henrietta Marie, lands Michael Cottman, a Washington, D.C.-based journalist and avid scuba diver, in the middle of an amazing journey that stretches across three continents, from foundries and tombs in England, to slave ports on the shores of West Africa, to present-day Caribbean plantations. This is more than just the story of one ship its the untold story of millions of people taken as captives to the New World. Told from the authors perspective, this book introduces young readers to the wonders of diving, detective work, and discovery, while shedding light on the history of slavery.From the Hardcover edition.
