

## Sir Isaac Newton: Overlord of Gravity (Superheroes of Science)

Most people know the story of Sir Isaac Newton discovering gravity. An apple fell from a tree, hitting him on the head. However, Newton is also responsible for articulating the laws of motion and many early studies on light and color, including work with prisms. Learning about Newton's life during his discoveries engages readers with the curiosity and hypotheses involved in scientific inquiry. Colorful photographs and historic images highlight important events and scientific facts as readers discover Newton and his many breakthroughs.
