

## Get Started Using Social Media On Your Projects

Get Started Using Social Media on Your Projects (2nd Edition) is a 32-page ebook that explains five social media tools relevant for project teams and suggestions as to which tools to start with. It discusses the business value of social media tools, the pre-requisites are for making your social media deployment a success and how to set up your social media deployment as a project. The ebook covers introducing and customising social media tools, getting ready for the launch, going live with your new tool and training users. It also discusses how you can measure success and keep the momentum going. This book is aimed at project, program and PMO professionals looking to introduce social media tools into their toolkit for successfully managing projects.
