

Encyclopedia Of Christmas Tree Light Sails: Volume 8.

This is Volume 8 of an encyclopedia of novel classes of relativistic light sails. Concepts mathematically presented include multiverse and hyperspatial potential energy extraction, multiply present energy collection surfaces, and many other modes of energy collection. The book includes a formulation for gamma for a very lengthy linear combination of propulsion system methods. Presented herein are systems that as a whole are unlike anything that has been previously proposed. It is hoped that the reader will approach the content provided herein with an open mind.
