

The Anatomy of a Miracle: Cutting-Edge Science Has Finally Advanced to a State That Puts the Miraculous Within the Grasp of Modern Man

Miracles are not for the deserving, but for the believing! Deep within every person is a longing for the miraculous. When we slow down enough to listen to the intuitive voice that speaks from within, we know miracles should be experienced with the greatest of ease. Yet, the hope for the miraculous is clouded by the many voices that make miracles seem difficult or even unattainable. The promise of miracles has been so complicated by religious legalism, mystical ritualism and perfectionist idealism that they have been pushed beyond the horizon of hope. But today, in *The Anatomy of a Miracle*, hope will return. Regardless of your personal beliefs, you will be able to connect with the immutable laws of the miraculous. This book is not religious, yet it honors thousands of years of religious teaching. It is not scientific, yet it uses modern scientific discovery to explain the concepts of the miraculous in words that make sense to the twenty-first century mind. It is the perfect marriage of science and faith. In *The Anatomy of a Miracle* Dr. James Richards explains in understandable terms exactly how to experience your miracle. Using the language of quantum physics and truths from ancient times, really the two do go together, he describes step by step the process through which you can live the life you've always desired. Miracles are part of the fabric of humanity! Once you discover these immutable laws, living in the miraculous will be as natural as breathing!

About the Author James Richards is a pioneer in the field of human development. He has combined spirituality, energy medicine, scientific concepts and human intuition into a philosophical approach that brings about congruence in spirit, soul and body, resulting in a positive, peaceful, productive quality of life. He is a life coach, a consultant, a teacher and a motivational trainer. He holds doctorates in theology, Oriental medicine and human

behavior. He was awarded an honorary doctorate for work done in the Philippines. He is a certified substance abuse counselor, a certified detox specialist and a certified herbalist and holds an impressive number of additional certifications and training certificates. His most noted life's work is Heart Physics, a life renewal program designed to take people through Painless, Permanent, Effortless Transformation. When asked why he has studied such a broad field his answer is simple: If it helps people, I want to understand it! The goal of all his work is to help people experience wholeness, spirit, soul and body!
