

My Name Is Georgia: A Portrait by Jeanette Winter (Silver Whistle)

From the time she was just a young girl, Georgia O'Keeffe viewed the world in her own way. While other girls played with toys and braided their hair, Georgia practiced her drawing and let her hair fly free. As an adult, Georgia followed her love of art from the steel canyons of New York City to the vast plains of New Mexico. There she painted all day, and slept beneath the stars at night. Throughout her life Georgia O'Keeffe followed her dreams--and so found her way to become a great American artist.
