

Duckworth Redux (The Duckworth Chronicles)

Life just never seems to slow down for Duckworth and his friends. In this third volume of Duckworth stories, Duckworth makes it rain potato chips (at least, that's what everyone thought), then went searching for the fabled River of Slime, had to get a collar from a big Smith Island cat, met an invisible Mallard, and heard about the time his great grandfather got involved with a Martian invasion in New Jersey. Even flying south isn't any quieter, as Duckworth, Chuck, Danielle Featherby, and Cheesy Quacker find a mysterious land of mechanical animals in the middle of Florida. Yes, Duckworth gets involved in some tricky situations, but as his friends on Pickle Creek will tell you, Duckworth always finds a way.
