

Under the Stars (Dolphin Diaries #4)

Dolphin Diaries is an exciting new series that explores all aspects of dolphins relationships with mankind. Jody McGrath and her family are sailing around the world researching dolphins, and Jody records all their exciting adventures in her Dolphin Diaries. In the series fourth book, Jody is at Dolphin Haven in the Bahamas, where dolphins Bella, Misty, and Evie are about to give birth. Everyone is excited, but also worried. In the past, Evies calves have died, and this may be her last chance to become a mother. Mistys and Evies calves survive, but Bellas calf does not. Although the crew is saddened over the stillborn calf, they still rejoice in the two new dolphins.
