

Vigilant Ancestor: A World of Secrets Whispered in My Ear

Everything should be made as simple as possible, but not one bit simpler -Albert Einstein- In just the first few chapters of Vigilant Ancestor, you will find the existence of ghost spirits and human souls are fully explained and verifiable. It is accomplished by utilizing Albert Einstein's elemental physics in the same style that Dr. Einstein himself has used in so many of his books. It really proves to be that simple. This book is a narrative of lessons told in a 60+-year Tutelary Exemplar, or Guardian Teacher relationship between a Saami ancestral spirit and the author. Here we find a medicine man Spirit dispensing guidance not just to his apprentice, but, to all people of all races. Saami/American Author H.D. Rennerfeldt has embarked the reader on an autobiographical voyage into his intellectually enlightened inspirations. Many of the life tutoring is wonderfully intriguing especially the didactic passages on the Jimmy Hoffa disappearance. This is a far cry from the failed attempts by the F.B.I. and the gangsters looking to cash in on a mystery. The most incomprehensible thing about the world is that it is at all comprehensible. -Albert Einstein
