

## Science Alive - 4:Practical Experiments for Grade 4

Science Alive (1-5) is a completely new 5-year course specially designed to make the teaching and learning of science a meaningful and truly alive experience. The series is planned around the philosophy that science can be learnt only if the child acquires a scientific temperament there must be curiosity and a kindling of the child's imagination; the joy of discovery and satisfaction of inferring and drawing conclusions. Special features include: simple language and vocabulary child-centred approach lively and plentiful illustrations text interwoven with easy-to-do activities and experiments a help column to explain new words, give or elicit additional information, etc. enrichment projects to give ideas for exhibitions, projects, etc.
